

## Gale HT405.1

The sophisticated HT405.1 Home Theatre system features 5 Gale satellite speakers and complimenting Gale active subwoofer. This combination provides a cosmetically pleasing and cost effective package which ultimately provides a commanding home movie experience.

### HT405.1 Powered subwoofer

The compact Gale HT405.1 active subwoofer forms the heart of the HT405.1 system, effortlessly pumping out clear and dynamic bass. An 8 inch unshielded long throw woofer delivers heavyweight sound via a dynamic 65 Watt amplifier, whilst its minimal cabinet construction not only looks stylish, it helps deliver tight, powerful depth to add that extra impact required for movie soundtracks.
